WORK TO RESUME ON NH ROUTE 11 IN ANDOVER AND FRANKLIN
REHABILITATION OF A TOTAL OF 3.8 MILES OF ROADWAY

The New Hampshire Department of Transportation announces construction work is expected to resume the week of April 3, 2006 on the reconstruction of 3.8 miles of NH Route 11 from Hoyt Road in Andover to NH Route 3A in Franklin.

Included in the Franklin section of the Route 11 work is a new intersection at Chance Pond Road, and a new "T Type" intersection at Route 3A.

The City of Franklin will be constructing a sewer main on NH 3A and NH 11 to Kidder Avenue in conjunction with these NHDOT road projects. Keyspan will also be relocating the gas main on NH 3A and the east end of NH 11.

The Andover-Franklin project (Hoyt Road in Andover to Log Cabin Road in Franklin) contractor, Weaver Brothers Construction Company of Bow, expects to complete its work near Webster Lake by the middle of June 2006.

R.D. Edmunds of Franklin expects to complete the Franklin Route 11/Route 3A section by the end of October 2006.
